

1000 paper cranes

Good afternoon,

On Friday, we received a beautiful donation of paper cranes. They were gifted to us by Pastor Brian Lusky, a missionary to Japan from Grace Church, along with his daughter, Chloe, who was a patient of SHC – Erie, in collaboration with Eikou Christian Church in Kirkland, Washington. The cranes were constructed by many people, Japanese and American, from all over the country, to bring good luck to our patients and staff.

According to Japanese tradition, orizuru is often folded with a prayer for longevity, happiness, recovery from natural disasters and healing from illness. The crane has long been considered a bird of good luck and the orizuru a symbol of peace, hope and encouragement.

Thought you might enjoy seeing this unique, special donation.
